ENZO LIGHT

The excitement of a choice.

This particular code stays in your mind.

Enzo Light code with a light gray background with its beautiful intersecting streaks will be a unique choice. A choice that caught the eye of every viewer

Noir

Lightning in the black heart of the night, taken from the heart of nature!
The best choice for fans of dark and secluded colors, noir has a uniform blackness along with regular and parallel lines of gold, cream and white, has a unique beauty that attracts the eyes of any viewer and also due to having a prominent and glossy finish in any type of design can be used and the range covers a wide range of tastes.

ENZO GOLD

The colors are vivid! Two choices in one code: glossy finish and matte finish! Enzo gold code, a combination of gray, brown with special golden streaks, can be a good choice for both modern and classic work. The difference in this code allows you to combine with any color.

VOLCANO

Gray is always a special color in design!

Prominent and matte finish with white streaks!

The light gray background allows you to combine with any color in your design, but the special point of this code is its white streaks that turn a modern work into a unique design at the same time. Do not ignore this unique code!

ENZO DARK

A unique experience

Synchronize with your specific designs

Enzo Dark code can undoubtedly be considered a special choice. A neutral color that has been inspired by the finish and streaks to show its difference..

Galaxy

Black is one of the most widely used colors in the world; But to choose this color in interior decoration, you need a little courage! The Galaxy, with its black theme, white dandruff and, of course, its prominent surface, evokes the image of the moon and is one of the most special colors in SPL. We can use this color in different styles of modern, industrial, transitional, etc. and be sure that we have a unique choice.

The image features a dark grey, marbled background with intricate, vein-like patterns in shades of brown and reddish-orange. The overall texture is rough and organic, reminiscent of volcanic rock or aged paper. Centered in the upper half of the image is the word "VOLCANO" in a bold, white, serif font.

VOLCANO

GALAXY

CARBON GRAY

The background is a marbled pattern with a base of dark grey and charcoal tones. Interspersed throughout are thin, irregular veins of a golden-brown or ochre color, creating a complex, organic texture. The overall appearance is reminiscent of natural stone or high-quality paper.

ENZO GOLD

ENZO DARK

The image features a background of marbled paper with a complex, organic pattern of dark, branching veins against a light, textured surface. The text 'ENZO LIGHT' is centered horizontally and vertically in a white, all-caps serif font. The overall aesthetic is classic and elegant, typical of high-quality stationery or book covers.

ENZO LIGHT

BERELA LIGHT

BERELA DARK

The image shows a classic marbled paper pattern, often used for book covers or endpapers. The pattern consists of irregular, flowing veins of dark grey and black against a light grey background. The word "BRITANICA" is printed in a large, white, serif font, centered horizontally and vertically on the page. The overall appearance is that of a vintage or classic book cover.

BRITANICA

SOLID GRAY

CARBON BLACK

CARBON G LIGHT

ZOHAL

The image features a background of marbled paper with a light beige or cream color and intricate, vein-like patterns in shades of brown and tan. The word "JASPER" is printed in a white, all-caps, serif font, centered horizontally and positioned in the upper half of the image. The paper has a slightly textured appearance with some creases and irregularities in the marbling pattern.

SPL ADVANTAGES

HIGHLY
SCRATCH-RESISTANT

RESISTANCE
TO FREEZING
AND THAWING

MAXIMUM
RESISTANCE
TO FIRE
AND HEAT

RESISTANT TO
ABRASION

RESISTANT
TO STAINS

LOW
WATER
ABSORPTION

STAIN-RESISTANT

Because of its virtually zero porosity, the new surface SPL is highly resistant to everyday domestic stains and chemical agents. Even the most stubborn stains such as wine, coffee, ink and rust can be easily cleaned. Splashes and drops of everyday cleaning products such as bleach or degreasing oven cleaners do not cause any harm to the material.

MAXIMUM RESISTANCE TO FIRE AND HEAT

SPL has very good resistance to high temperatures without affecting its aesthetics or its properties. Hot utensils, appliances, pots and pans can be placed directly on the surface without any danger or harm.

SCRATCH-RESISTANT

SPL is a surface that is virtually impossible to scratch. Household utensils and other sharp objects do not scratch the material. However, we recommend the use of cutting boards to prevent blunting any household utensils.
